black water. It is about a quarter of a mile because any gain obtained by reincing the long and half as wide, and is fed by numerous home charges and the interest on gold debt little streams-come bot, some warm, and one or would be more than counterbalanced by the loss scented caper, 22,218 lbs. scented orange pekoe, two old-whose waters are strongly charged inflicted on the trade and revenue of India; that with different soid and alkaline salts. The water the gain would be illegitimate and injurious as of the lake feels smooth and oily, and its tasts is benefiting only a small class at the expense of tobacco. For Italy-105 bales raw silk. salt and bitter. Its temperature ranges from producers who form the mass of the country. 110 degs, near the shore to 156 degs, on the The Association is the most influential in this surface at the centre and 216 degs. at a depth of Presidency. 250 feet. Though the water is jet black, it does not stain the skin of bathers, but the minute solid particles it holds in suspension adhers to and colour the fibres of white cloth. The lakea bath in which is wonderfully exhibitarating—bas The Peiho may be said to be frozen. At long been famed among the Indians as a place of cure for all forms of disease.

A newly opened coal-mine near Manchester, Eng., lies at the great depth of about 1,000 an extent that the steamer Tungohow had yards, and the boring presents the corious difficulty in getting down to Taku. At phenomenon of passing down from one seam of itself ice 31 in thick bridges the river, and unless coal to another one 500 yards geologically higher.
This is due to a reversed fault, by which the the next springs break it up again access to seems are thrown into this remarkable relative the coal wharf at Tongku will be closed for the position. At the bottom of the mine the temwinter. A gale from N. and neap tides com- perature is 84". Fahr. which is anexpectedly low, than at the surface.

A strange story comes from Austria. It reing for water to get out. The last steamer lates that a chemist has devised a new seperific inwards, the Chungking, is outside the bar, un of such rapidity and power that a few drop sprinkled on the face and hands effectuall stupelies a man in a few seconds The Austria Government has not only refused to purchase provalence of wind with dust, is very fine, and the secret for use in war, but has ordered the in there is no sickness of any kind. But cold dis. ventor to abstain from using it or communicating

A hald-head may become a certificate of good character. It has been noticed that among which has been enterprised this sesson on an iseveral hundred males imprisoned for law break ing only a small percentage -less than ten per cent,-are bald headed, and the proportion seem to be smallest among those whose crimes are

A German physiologist claims to have prove quite conclusively that the germs of consumption may be and have been conveyed from one person We are informed that Mr. Nicholas Roderick to another by the much-offending bed-bug.

Recent catalogues show that entomologist have found 363 species of spiders, in the Uppe tion, and neither has yet presented his creden- ing, those forms which are most frequently

In recent cancer has been quite frequently observed in the lower animals, proving insisted upon presenting his credentials only to to be by no means so rare among them as was the Emperor in person and in a proper and fit- formerly supposed. But what is probably the first known occurrence of the disease in fish has It is slown that sweetness is not the only brook trout, kept in confinement in one of the THE GERMAN MAIL.

Something like ten years ago a Protai named | The N. D. L. steamer Bayern, with the German mail of the 21st nit, arrived yesterday. The following telegrams are from Caylon and
